# Accessories: WSync dongle

DONGLE FOR CONFIGURATION OF VAS BOARDS AND MSK-101 SENSORS

WSYNC-RJ-BT5

Dongle for configuring VAS analysis boards and MSK-101 sensors

The WSYNC-RJ-BT5 device allows you to configure and maintain VAS boards conveniently from a smartphone or tablet using the free "TSec WSync" app. The dongle is designed for temporary use only during configuration or maintenance operations. The same device, used with the free "Inxpect Security" app, is required for programming MSK-101 sensors, always via smartphone or tablet.

WSYNC-RJ-BT5 is based on the latest-generation Bluetooth® 5 technology and is compatible with both Android and iOS systems.
