

# CLIC MAGNETIC VIBRATION SENSORS.

Besides alarms, they trigger envy.

TSec proudly presents a new revolution for the security market. Based on Magnasphere technology, maximum reliability, sensitivity comparable with top of the line products and compatibility with analysis circuitry from all major brands, all in a compact case for fully concealed mount with no positioning constraints. Introducing the new CLIC vibration sensors: surrender to envy.

**The TSec revolution is only at the beginning. Follow us, we'll surprise you. ▶ [www.tsec.it](http://www.tsec.it)**
